

Passionate about building dynamic, user-centric web applications, with a strong skill set in both front-end and back-end technologies. Adept at designing and implementing scalable, efficient solutions, with a focus on performance and usability. Continuously learning and staying updated with the latest industry trends, I seek a challenging role where I can apply my expertise and grow, while contributing to the success of a forward-thinking organization.

SKILLS

Frontend Development

- React
- HTML/CSS/JS
- Tailwind

Backend Development

- Express

Programming Language

- JavaScript
- TypeScript
- Python
- Java

Full-Stack Development

- Next.js
- MERN

Database

- MongoDB
- MySQL

Tools

- WIX

Mobile Development

- React Native

VOLUNTEERING

- Organizer of Techacks Hackathon at Chitkara University.
- Web Development team member for TEDx NUV.
